

Environmental Policy

Last Reviewed: April 2020

Mission statement

Studio Nine Two Creative Limited not only recognises, but actively seeks to ensure we meet our responsibility to the environment beyond legal and regulatory requirements. We are committed to reducing our environmental impact and endeavour to continuously improve our environmental performance which forms an integral part of our business strategy and operating methods as part of our community aims and objectives. We encourage our clients and suppliers to do the same wherever possible.

Responsibility

Our director is responsible for ensuring that the environmental policy is implemented. However, all partners, members and employees have a responsibility to ensure that the aims and objectives of the policy are met.

Policy aims

We endeavour to:

- Comply with and exceed all relevant regulatory requirements.
- Continually improve and monitor environmental performance.
- Continually improve and reduce environmental impacts.
- Incorporate environmental factors into every business decision.

Paper

- We will minimise the use of paper through appropriate technology.
- We will aim to be a paperless business in every aspect possible.
- We will reuse and recycle all paper where possible.

Energy and water

- We will seek to reduce the amount of energy used as much as possible.
- We endeavour to use green powered energy suppliers when possible.

Transportation

- We will reduce the need for business travel, through telecommuting where possible, including video conferencing and e-mail priority.

Suppliers and Clients

- We will seek to use suppliers who provide sustainable products.
- We will refuse our services to any business who are proven to partake in environmentally damaging practices such as fracking, burning of fossil fuels etc

Our Carbon Offsetting Objectives

Our carbon offsets are a practical and effective way in which we can address and counteract our carbon footprint while contributing to a more sustainable future for us all. With this in mind, our objective is to become a carbon neutral company by 2023 by achieving full carbon offsetting. We're already in the process of implementing a number of tools to increase our offsetting practices, including planting trees for all print orders and ensuring all waste created by our business is fully recyclable and biodegradable. We will continue to monitor and implement positive changes within our business to ensure we meet our objectives and achieve a carbon neutral status by 2023.
